

THE SYSTEMIC ARCHITECT

PRIVACY POLICY

Effective Date: July 29, 2026

The Systemic Architect ("we," "us," "our") respects your privacy. This policy explains what information we collect when you visit thesystemicarchitect.com, sign up for our newsletter, or purchase a product through Payhip, and what we do with that information.

By using this website or purchasing a product from us, you agree to the practices described in this policy.

Information We Collect

We collect your email address when you:

- Sign up for The Systemic Shift newsletter through the form on our website
- Purchase a product or download a free resource through Payhip

We do not collect names, phone numbers, or physical addresses directly through our website. If you purchase through Payhip, Payhip collects additional information as part of processing your transaction, which may include your name and payment details. That information is handled under Payhip's own privacy policy, not ours.

You can review Payhip's privacy policy at payhip.com/privacy.

How We Collect and Store It

Email addresses collected through our website and through Payhip purchases are stored and managed in Email Octopus. If you subscribed directly through Substack rather than our website, your email is stored there instead.

We plan to move subscriber management to Kit or Sender in the future to support newsletter automation. When that change happens, this policy will be updated to reflect where your information is actually stored.

How We Use It

We use your email address to:

- Send you The Systemic Shift newsletter
- Deliver the product or resource you purchased
- Let you know about new products related to what you've already purchased

We do not sell your email address. We do not share it with anyone outside the services listed in this policy.

Third-Party Services We Use

Your information may pass through the following services as part of running our business:

- Email Octopus, to store and manage our subscriber list and send updates
- Substack, to write and publish The Systemic Shift newsletter
- Payhip, to process purchases and deliver digital products
- Google Analytics, to understand how visitors use our website

Each of these services has its own privacy policy governing how it handles data. We encourage you to review them if you want more detail on how they work.

Google Analytics

We use Google Analytics on our website to understand how many people visit, which pages they look at, and how they found us. Google Analytics collects general information such as approximate location, device type, and browsing behavior on our site. It does not collect your name or email address.

You can opt out of Google Analytics tracking on any website by installing the Google Analytics Opt-out Browser Add-on, available at tools.google.com/dlpage/gaoptout.

For more on how Google handles this data, see Google's Privacy Policy at policies.google.com/privacy.

Your Choices

You can unsubscribe from The Systemic Shift at any time using the unsubscribe link in any email you receive from us.

You can also ask us to remove your information from our records by emailing thesystemicarchitect@gmail.com. We will remove your information within a reasonable time after your request, except where we're required to keep transaction records for tax or accounting purposes.

Data Retention

We keep your email address on file for as long as you're subscribed or until you ask us to remove it. Purchase records may be kept longer where required for accounting or tax purposes.

Children's Privacy

Our website and products are intended for business owners and professionals. We do not knowingly collect information from anyone under the age of 18.

Changes to This Policy

We may update this policy as our tools or practices change. The effective date at the top of this page will reflect the most recent update. Significant changes will be noted in an issue of The Systemic Shift.
